

AKSHAT JAIN

CS Student | Web Developer | Cybersecurity Enthusiast | AI & Cloud Learner

akshatkumarjain111198120@gmail.com · linkedin.com/in/akshat-jain-648a24283 · github.com/Ak5h4tjain · Indore, Madhya Pradesh, India

PROFESSIONAL SUMMARY

Computer Science undergraduate at Shri Vaishnav Institute of Information Technology (SVIIT), Indore. Passionate about building secure, cloud-native solutions and exploring AI, cybersecurity, and design thinking. Holder of 11 industry-recognised certifications from IBM, NPTEL (IIT Kharagpur & IIT Madras), Deloitte, TCS, and Google. Actively seeking internships and collaborative opportunities in software development, cybersecurity, and cloud computing.

EDUCATION

B.Tech — Computer Science & Engineering

2023 – 2027 (Expected)

Shri Vaishnav Institute of Information Technology (SVIIT)

Shri Vaishnav Vidyapeeth Vishwavidyalaya · Indore, Madhya Pradesh

Relevant Coursework: Data Structures & Algorithms · Cloud Computing · Data Science · Cybersecurity · Web Technologies

TECHNICAL SKILLS

Cybersecurity	IAM Fundamentals, IAM Strategy, Cyber Forensics, Risk Assessment (Deloitte & TCS Certified)
Cloud Computing	Cloud Architecture, Infrastructure, Distributed Systems (NPTEL — IIT Kharagpur Certified)
Data Science	Statistical Analysis, ML Basics, Data Wrangling, Data Engineering (NPTEL — IIT Madras Certified)
Web Development	HTML5, CSS3, JavaScript, React.js, Responsive Design, REST APIs
Design Thinking	IBM Enterprise Design Thinking — Practitioner, Co-Creator, Team Essentials for AI
AI & Emerging Tech	ChatGPT, AI Productivity Tools, Prompt Engineering, AR/VR
Tools & Platforms	Git, GitHub, VS Code, Figma
Languages	C, JavaScript, HTML, CSS

PROJECTS

NASA API Project

JavaScript · CSS · HTML | github.com/Ak5h4tjain/NASA_API_PROJECT

- Built a React application integrating NASA's public APIs to display astronomy pictures of the day, Mars rover imagery, and space data.
- Implemented dynamic API fetching, responsive UI, and component-based architecture using React hooks.
- Tech split: JavaScript 54.6%, CSS 37%, HTML 8.4%.

Todo List App

JavaScript · CSS · HTML | github.com/Ak5h4tjain/ToDo-List_project

- Developed a fully functional React.js Todo List application with task creation, completion toggling, and deletion features.
- Demonstrated clean component-based architecture and effective use of React useState and useEffect hooks.

Amazon Clone

HTML · CSS | github.com/Ak5h4tjain/amazon

- Engineered a pixel-accurate front-end clone of the Amazon e-commerce homepage using pure HTML and CSS.
- Replicated navbar, hero banner, product grid, and footer layout with fully responsive design.

BMW i8 — Car Listing Page

HTML · CSS | github.com/Ak5h4tjain/Akshat_Jain33

- Designed a clean, dealership-style product listing page showcasing BMW i8 specifications and pricing layout.

CERTIFICATIONS

• Cyber Job Simulation	Deloitte × Forage	June 2025
• Cybersecurity Analyst Job Simulation	Tata Consultancy Services × Forage	July 2025

• Cloud Computing	NPTEL — IIT Kharagpur	Jul–Oct 2025
• Data Science for Engineers	NPTEL — IIT Madras	Jan–Mar 2026
• Enterprise Design Thinking Practitioner	IBM (Credly Verified)	April 2025
• Enterprise Design Thinking Co-Creator	IBM (Credly Verified)	April 2025
• Enterprise Design Thinking — Team Essentials for AI	IBM (Credly Verified)	May 2025
• 3-Day Web Development Workshop	Google Developer Group (SVVV Campus)	Feb 2025
• AI Tools & ChatGPT Workshop	be10x	June 2025
• Augmented Reality & Virtual Reality Seminar	VRadicals India Pvt. Ltd.	Sep 2024
• C for Beginners	Great Learning Academy	June 2024

ACHIEVEMENTS & ACTIVITIES

- Earned 11 industry-recognised certifications across Cybersecurity, Cloud Computing, Data Science, AI, and Design Thinking.
- Completed NPTEL 12-week Cloud Computing course by IIT Kharagpur and 8-week Data Science course by IIT Madras.
- Completed Deloitte and TCS Cybersecurity Job Simulations via Forage platform.
- Attended Google Developer Group (GDGOC-SVVV) 3-Day Web Development Workshop (Feb 2025).
- Attended AR/VR Seminar by VRadicals India Pvt. Ltd. (Sep 2024).
- Actively maintaining 6 public repositories on GitHub showcasing frontend and API integration projects.
